## H.B.A. Educational House

The H.B.A. Educational House is being built to raise money for the Osceola County Home Builder Association. All profits will go towards helping teachers purchase school materials. 4-H Plumbing recently completed the underground plumbing for the project (Sponsored by the H.B.A). The builder contractor for this educational project is Wetherington Builders. 4-H Plumbing, Moen and Ferguson are working together to provide contributions such as labor and material to help make this project a success!

Florida is a very hot and humid place to be during the summer months. Special care should be taken to prevent dehydration or heat exhaustion from taking place. The

- Drink plenty of water.
- Do not drink caffeinated beverages.
- Work as a team and keep an eye on your co-workers whenever possible.
- Take small breaks in the shade if you are exposed to direct heat.
- Get plenty of rest the night before.

To all Employees that were born in April, May and June

**HAPPY BIRTHDAY!**
